DETAILED ACTION

1. Applicant's election without traverse of Species I in Paper No. 3 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3, 8, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Pestana.

Pestana discloses a quick-change two-piece watchband for attachment to a watchcasing comprising:

- A watchcasing (12) having a first pin (36) and a second watch pin (34);
- A first piece (14) of hook and loop fastener material attached to the first end of the casing threaded behind the first pin;
- A second piece (16) of hook and loop material fastener material attached to the second end of the casing threaded behind the second pin;
- A fastening member attached to a free end of each the first (the end of 14) and the second (52a, 52b) pieces for securing the watchcasing to a wearer's wrist; and
- A security device (30, 36) slideably positioned on each of the first and second pieces for providing added security to the hook and loop material.

Regarding claims 8 and 9, the method of attaching a two-piece watchband to a watchcasing as claimed is inherent with the use of the band of Pestana.

Art Unit: 3727

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Matthias, Webb, Jr., Fletcher, Hallman et al., Larose, Hubbert, and Kitahara et al. are cited for watch bands comprised of hook and loop material.
